PROJECTS

Ved-folio (Portfolio) – React, Next JS, GenAI

Live

- Developed a a personal portfolio using **React** and **Next JS**.
- Integrated **Gemini's Generative AI** as a chatbot.
- Integrated **github stats** and projects fetching using **Github's API**.

Movie Recommender System - Python, Machine Learning

- Built a **content-based** recommendation engine using the TMDB dataset.
- Implemented **cosine similarity** to generate personalized movie suggestions.
- Demonstrated strong skills in **data processing, modeling, and algorithmic thinking**.

Rainfall Prediction (IoT + ML) – ESP8266, DHT11, Python

- Designed an **IoT-enabled** machine learning project to predict rainfall based on real-time humidity and temperature data.
- Integrated Python-based predictive models with **Google Firebase** for real-time data storage and retrieval.
- Developed a responsive web interface using HTML, CSS, and JavaScript.
- Set up IoT devices to collect environmental data, ensuring real-time accuracy.

EDUCATION

B.Tech(CSE)

Kalinga Institute of Industrial Technology, Bhubaneswar India

Aug 2021-May 2025

CGPA: (8.74/10)

Class 12th (National Examinations Board)

St. Xavier's Secondary School, Birgunj Nepal

2021

GPA: (3.15/4)

Class 10th (National Examinations Board)

Shree Nrisingh Secondary School, Birgunj Nepal

2019

GPA: (3.75/4)

SKILLS

Programming Skills : React, NextJS, MongoDB, C++, Python, Java, C, JavaScript

Other Skills : HTML, CSS, Linux, Git, SQL, Figma

ACHIEVEMENTS

Study in India Scholarship granted by Government of India to complete my B.Tech in CSE.
